PREFACE

This issue of "Citators and Index to Court-Martial Reports" cumulates the various tables of cases reported or cited, the tables of orders, laws, and regulations cited, and the indexes appearing in Volumes 26 through 50 of the Court-Martial Reports.

The Table of Cases Reported arranges, in alphabetical order by name of accused and by docket or court-martial number, all decisions of the Boards of Review, Courts of Military Review and the United States Court of Military Appeals reported in Volumes 26 through 50. As special features, the alphabetical table includes the appellate action taken with respect to each board of review or Court of Military Review case and the parallel citations or references to the reports of the United States Court of Military Appeals.

The "citator" or Table of Court-Martial Cases Cited collects cases reported in Volumes 1 through 50 CMR and Volumes 1 through 4 CMR(AF) which are cited in cases reported in Volumes 26 through 50 CMR. The citator history of a case as reflected in this table indicates by appropriate symbols whether the case has been distinguished, is not followed, or has been overruled, and also shows by a superior figure the particular headnote of the case referred to. This table also includes the appellate history of cited cases.

The Table of Miscellaneous Cases and Opinions Cited includes Federal and State Court decisions and opinions of miscellaneous Federal departments and agencies. It also includes the opinions of the Judge Advocates General and decisions of Boards of Review and Courts of Military Review cited in Volumes 26 through 50 but reported in publications other than the Court-Martial Reports.

The Table of Orders, Laws, and Regulations Cited collects the references in Volumes 26 through 50 to the Uniform Code of Military Justice, Manual for Courts-Martial, United States Code, and other regulations and statutes.

In all the above tables (with the exception of the "citator") and the cumulative index, the particular volume of the Court-Martial Reports containing the reported case, citation, or point indexed, is indicated by a boldface number. The page reference is lightface. In the "citator" the case cited appears in boldface; the volumes and pages of the particular reports wherein it is cited appear immediately below it.

Volumes 26–50

With Complete Citator and Appellate History
of Cited Cases

When a cited case has been distinguished, not followed, or overruled, such action is indicated by an appropriate letter prefix (d, n, or o). The absence of a prefix indicates that the cited case has been followed or cited. The particular headnote of the cited case referred to in the reported case is designated by a superior figure. The absence of a superior figure indicates that the case was cited, but not in respect to any particular headnote.
